Hospice Care

A special concept of care for terminally ill people, their families and their caregivers that:

- Treats the physical, emotional, social, and spiritual needs of the patients.
- Takes place in the patient's home or in a home-like setting including assisted living and skilled nursing facilities.
- Concentrates on comfort and quality of life.
- Provides compassionate, sensitive assistance to your family and caregivers.
- Improves the quality of life remaining to be as pleasant as possible.
- Free in-home consultation.

Family and Caregiver Counseling

Volunteer Support Program

Most Palliative and Hospice services are covered 100% by Medicare and Medicaid and most major insurance companies provide hospice benefits. We can assist you in determining eligibility and resources.

Rehabilitation Care

Dizziness and loss of balance are among the most common problems bringing patients to their physician's office. In fact, 40% of adults experience dizziness or imbalance at some point in their life. If left untreated, the results can be debilitating. As people get older, the onset of dizziness and falls from balance problems increases.

These falls can lead to injury, hospitalization, surgery and even permanent disability. Dizziness and imbalance should not be accepted as inevitable effects of the aging process. Canyon Home Care offers a comprehensive balance and vestibular rehabilitation and therapy program.

Balance & Vestibular Program

Evidenced-based techniques help patients regain equilibrium and resume a normal lifestyle. These techniques may include:

- Canalith Repositioning Maneuvers (Epley Maneuver, Semont Maneuver)
- Brandt-Daroff Exercises
- Balance Retraining
- Motion Tolerance (habituation) Exercises
- Gaze Stabilization Exercises
- Physical Conditioning Exercises

If you are having issues with your balance, contact your health care provider and request a referral for balance and vestibular rehabilitation from the experts at Canyon Home Care & Hospice.

Pediatric Care

Our Private Duty nurses provide round-the-clock care, if necessary, or scheduled visits as required or deemed appropriate by your doctor.

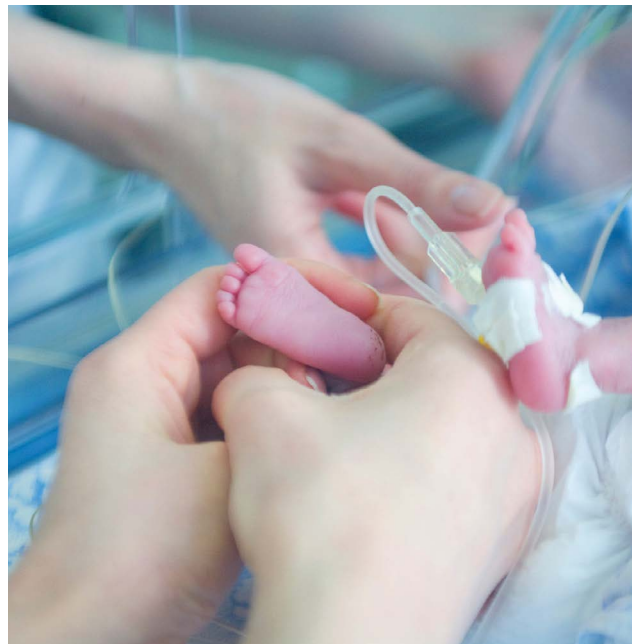

We're there when you need us, and just as importantly, we understand the challenges of having a non-family member in your home. Our nurses are trained to respect family boundaries and adjust to the dynamics of every home.

All of our extended-care, Private Duty nurses are licensed, trained, and experienced in the specialized discipline of caring for young patients.

Pediatric Services

Our extensive Pediatrics Care Program sets us apart from other home health agencies because our Private Duty Nurses are supported by the full services Canyon Home Care & Hospice offers, including:

- IV Therapy
- Newborns
- Nutritional Support
- Respiratory Care
- Diabetes
- Lab Draws
- Wound Care

A pharmacy that's ready when you are.

Red Rock Home Pharmacy works around your schedule—we sort your medications and deliver them directly to you.

- All medications, including over-the counter, are sorted and packaged by dose and schedule.
- 30 day medications are filled with free delivery, scheduled every 28 days to never miss a dose.
- We work with doctors to add new prescriptions and other pharmacies to transfer existing prescriptions.
- Competitive pricing and ALL insurances accepted.
- Pharmacists are available to answer any questions.
